

## STATEMENT OF PURPOSE

RS29868 / H0819

Vegetation that reduces the visibility of outdoor advertising and business signs negatively impacts Idahoan's ability to safely read information regarding services and products. This legislation streamlines the process for owners of outdoor advertising and business signs to manage vegetation on a public right-of-way where they have legally erected a sign. Owners must submit a permit application that describes the intended vegetation trimming or removal and pay appropriate permitting fees to the political subdivision of the state that is responsible for managing the public right-of-way to receive a landscape control permit.

## FISCAL NOTE

There is no anticipated cost to the general fund or local governments.
